

Notice of Information Release to Military Recruiters

Michigan and Federal law require school districts, upon request, to provide military recruiters and institutes of higher learning access to the names, addresses, and telephone listings of high school students 17 and older or in the 11th grade and enrolled in a secondary school in the United States.

A student (if 18) or the student's parent/guardian may request that the name, address, and telephone number not be released without prior written parental consent.

Completing the form below and returning it to the Marysville High School Main Office prior to the start of the school year will remove a student's name from the distribution list. This revocation can only be reversed with written approval from the parent or student (if 18).

Reservation of Consent

Please do not release the name, address, and telephone number(s) associated with the following student to the entities checked below without written prior permission.

_____ Student Name

U.S Military Recruiters

Institutes of Higher Learning

_____ Parent/Guardian Name (Printed)

_____ Parent/Guardian Signature
